

Shining solutions for a smart cleaning

Scouring sponges and abrasive products

CLEAN, NAMELY ARIX

Arix S.p.A. is one of the leading European and worldwide Manufacturers Group of the household cleaning market, with business unit located in Poland, Great Britain and China, synergistically supported by the historic Headquarters and main production plants placed in Viadana, in Mantua district.

Over 55 years of experience represent the background of a unique know-how, the prerequisite for the development of a wide range of cleaning and home care items in compliance with the guidelines that Arix has placed at the base of its own Mission, further empowered by important system certifications and by the adoption of a management and control model.

Our daily work quality

Work safety and health

Our environment impact

The circular economy of our products

Sustainable sourcing for the planet

QUALITY and **INNOVATION** make our productions distinctive, together with **SUSTAINABILITY**: we are committed to make products that simplify people's life while get a positive impact on the environment in which we work and on all our stakeholders.

Arix has obtained the prestigious recognition of "Historic Brand of National Interest," a certification reserved for brands that represent the excellence of Made in Italy.

The Italian Household Cleaning Industrial Group

PRIDE OF ITALIAN CLEANLINESS

Arix has obtained for its products made with plant based cellulose the **PEFC** voluntary certification, issued by an international non-profit association, able to guarantee:

- **Raw materials obtained from forests managed according to stringent environmental, social and economic sustainability requirements;**
- **The complete traceability of products from forests managed according to the PEFC standard.**

The **PEFC** logo on our cellulose products packaging allows the users to do responsible and ethical purchase towards the environment and next generations.

From the realization that The World is changing and that the future of the Planet is our future, Arix has decided to make a concrete green turn to its Mission & Vision, committing to a specific goal: to change, in an increasingly sustainable way, the world of everyday cleaning and home care products.

We like green is the line of abrasive sponges and metal wire scourers with distinctive features: cellulose sponges of 100% plant-based origin, PEFC-certified, biodegradable and compostable; abrasive and no-scratch fibres made from 100% recycled post-industrial sourced material, both plastic and plant-based origin; metal wire pads with at least 70% recycled stainless steel.

Exclusive green plus that do not come on opposition with the product performance, living up to the expectations of a user looking for the best result with the least effort.

MasterClean

Master Clean

MasterClean is synonymous with PREMIUM CLEANNESS: an high performance abrasive and no-scratch sponge line for the various home surfaces cleaning, whose main distinguishing features are the exclusive materials and treatments used:

- 100% plant-based origin cellulose base, PEFC certified: biodegradable, highly absorbent, easy to rinse;
- High quality polyurethane sponge base, soft and flexible;
- ANTI-GREASE scouring fibers: the oleophobic treatment prevents the removed dirt and grease
- Absorbption, leaving the fibers clean and effective longer;
- ANTIBACTERIAL TREATMENT: a special principle added to the sponge and/or scouring fiber, inhibits the germs and bacteria proliferation inside them, preventing the bad odors grown-up by granting their effectiveness longer over time.
- TOP performance are also available in value pack format.
