

Silence. The clean is on stage.

Tonkita[®]

The catalogue

CLEAN, NAMELY ARIX

Arix S.p.A. is one of the leading European and worldwide Manufacturers Group of the household cleaning market, with business unit located in **Poland, Great Britain and China**, synergistically supported by the **historic Headquarters** and **main production plants** placed in **Viadana**, in **Mantua district**.

Over 55 years of experience represent the background of a **unique know-how**, the prerequisite for the development of a **wide range of cleaning and home care items** in compliance with the **guidelines** that Arix has placed at the base of its own **Mission**, further empowered by important **system certifications** and by the adoption of a **management and control model**.

QUALITY and **INNOVATION** are the hallmarks of our productions together with **SUSTAINABILITY**, because we believe that **all our actions** should have a **positive impact on the place** which we are and on all our **stakeholders**.

Tonkita, one of the **most famous brands** in **italian market**, is a **brand of Arix** and **fully shares its values**.

Our daily work quality

Work safety and health

Our environment impact

The circular economy of our products

Sustainable sourcing for the planet

The Italian Household Cleaning Industrial Group

FIND MORE

Tonkita®

Pride of Italian Cleanliness

The story of Tonkita and its brooms began at the dawn of the 50s, in a climate of rebirth and fervent desire, when women and men dreamed of a future of well-being, when the biggest dream was having your own home : a space to shape and live, to keep and maintain with dedication.

Since then Tonkita has cared for those people with products known for their quality and performance. Its brooms soon became the brooms of the Italians.

Tonkita®

The guidelines of our work

Design, materials, high-tech productions for one of best “Made in Italy” brand

The customers are always at the heart of our projects. Their demands, their lifestyle, their needs are the subject of deep study and continuous analysis: we invest on them for **research** and **technological investments**, to create **INNOVATION**.

Economic growth and safeguard of the planet: a challenge that cannot be pushed forward!

We are always more and more aware that the planet future is our future and Arix is committed to a clear goal for a long time: to change the world of traditional cleaning and home care products in a sustainable way.

Plastic is a recyclable material, yet 70% of plastic is not recycled and it generally leaks into the environment and pollutes it.

TONKITA - WE LIKE GREEN is the first complete line of **eco-friendly** cleaning tools, made with certified recycled and recyclable materials. The appearance and the colour of each product is unique and unrepeatable also because of the absence of dyes and its life cycle is potentially never-ending when inserted into the waste collection: each piece is, at the same time, finished product and raw material.

What about performance of the products? They're aligned with the typical Italian quality and design by Tonkita.
